Technische Informationen

1. Use a 2mm allen key to loosen the focus lock screw. Do not remove the lock screw from the mount.
2. By loosening the lock screw, you now have the ability to rotate the lens in and out of the C-Mount.
The focus will change as you rotate the lens – continue rotating the lens until you've reached the desired focus.
3. To secure the lens within the C-Mount at the desired focus, use the 2mm allen key to re-tighten the focus lock screw.
